- Synopsis of the project

- Main Report } Objectives & Scope of the project } Theoretical Background of Project } Definition of problem } System Analysis & Design } System Planning (PERT Chart) } Methodology adopted, system Implementation & Detail of Hardware & Software used } System maintenance & Evaluation } Cost and benefit Analysis } Detailed Life Cycle of the project o ERD,DFD o Input and Output Screen Design o Process involved o Methodology used for testing o Test Report, Printout of the code sheet } User/Operational Manual- including security aspects, access rights, back up, Controls etc. } Conclusion } References } Soft copy of the project on CD.

Objective:

The objective of this Project Work is the overall professional growth. The key to this task involves learning the project management skill by practically developing the project and enhancing the communication skill. The most effective uses of common time and the greatest impact from ideas and knowledge come from preparation. Use of computer tools/platforms/languages, composing visual aids, documentation, and careful choice of titles, thoughtful outlines, and efforts need to be put into designing and developing the project.

Other objectives:

1. Work in a team to complete the Project.
2. Enhance, Develop and Apply computer knowledge/Skill in Developing Project.
3. Imbibe Project Management Skill.
4. Develop Presentation Skill at conveying the Project Description.
