Conclusion and Suggestions

In 2021-22 year of the feedback analysis, students are satisfied with teacher's performance and their preparedness. Our analysis team found that it is an important criterion for our institution. Upgradation is required in library resources and laboratory the same had been conveyed to the management and steps are being taken such as upgradation and renovation of laboratories are initiated and repair are proposed in the college premise.

Suggestion from students:

1. Adequate faculties should be arranged and lack of staff in commerce department.
2. Information related to job should be provided to students.
3. MSc Biotechnology, Microbiology, computer science and information Technology should be open in new academic session.
4. There is a shortage of class rooms in the college.
5. Provide new auditorium for college program.

The analysis is done by feedback committee and report is submitted to QAC.
